Remo FAQ

Why is my camera, microphone, or speaker is not working?

REFRESH YOUR BROWSER!

This seems silly, but fixes most problems

Check to see if the correct microphone and camera is selected. Remo may have selected the wrong default microphone or camera

- Click the **triangle** next to the headphones or microphone, whichever is not working.
- Under "**Select Microphone**" or "**Select Camera**" select a different source.

Head to the link below that corresponds to the operating system that you are using.

Windows 10: <http://win10.remo.co/>

Apple Computer: <http://mac.remo.co/>

iPhone: <http://iphone.remo.co/>

Android Phone: <http://android.remo.co/>

If none of these options work, visit live.remo.co and click on the "**Need Help**" button on the bottom-left corner.

Can I see if my friend is logged into the event?

When you click on "Chat," there will be a "Search by name" box where you can look them up. If you do not see the search box, make sure that you have exited out of any messages that you sent by clicking the left arrow next to the name of the group or person you were chatting with.

What if I do not know anyone at the event?

We still encourage you to stick around and make new friends! There will be Champions dropping in at the tables to greet you and assist you with questions you may have. You can move around at breaks to connect and collaborate and talk with other designers and professionals just like you from across the globe.

Will there be any Sententia staff at the event to answer questions?

Yes! There will be Event Champions present throughout the event. You'll find a Champion by looking for ***<Name> Champion** in the list of participants at each session.

If you're having a tech issue, you can click on one of the seats in the armory!

Speakers will be stopping by throughout the event, and you can ask them questions one-on-one after their sessions.
